memory improvement the art pdf

I purchased The Art of Memory in January 2010, so it was what you could call a "slow burner." Basically, I bought it, read 20 pages and then put it on a book shelf for 18 month in order to occasionally look at it and go, "Nope."

Memory is the faculty of the brain by which information is encoded, stored, and retrieved when needed. Memory is vital to experiences, it is the retention of information over time for the purpose of influencing future action. If we could not remember past events, we could not learn or develop language, relationships, or personal identity ...
