A message W is transmitted through a noisy channel by using encoding and decoding functions. An encoder maps W into a pre-defined sequence of channel symbols of length n .

Estimating Surface Normals in Noisy Point Cloud Data

Welcome to the official website of Journal of Advanced Computational Intelligence and Intelligent Informatics. JACIII focuses on advanced computational intelligence and intelligent informatics.

JACIII | Fuji Technology Press Official Site : academic

Abstract. Recent study shows successful results in generating a proper language description for the given image, where the focus is on detecting and describing the contextual relationship in the image, such as the kind of object, relationship between two objects, or the action.

Learning to Describe E-Commerce Images from Noisy Online

The landmark event that established the discipline of information theory and brought it to immediate worldwide attention was the publication of Claude E. Shannon's classic paper "A Mathematical Theory of Communication" in the Bell System Technical Journal in July and October 1948.

Introduction. Welcome to Clever Algorithms! This is a handbook of recipes for computational problem solving techniques from the fields of Computational Intelligence, Biologically Inspired Computation, and Metaheuristics.

Clever Algorithms: Nature-Inspired Programming Recipes

Published as a conference paper at ICLR 2015 otherwise. The rst case only happens in the most severe case of sparsity: when a gradient has been zero at all timesteps except at the current timestep.

Adam: A Method for Stochastic Optimization - arXiv

We consider the problem of differentiating a function specified by noisy data. Regularizing the differentiation

process avoids the noise amplification of finite-difference methods. We use total-variation regularization, which allows for discontinuous solutions. The resulting simple algorithm accurately differentiates noisy functions, including ...

Numerical Differentiation of Noisy, Nonsmooth Data

Research Activities: I am interested in algorithms and interfaces for improved information retrieval, as well as general issues in human-computer interaction.

EEG Based Emotion Recognition System - IJCSIT

Systems Simulation: The Shortest Route to Applications. This site features information about discrete event system modeling and simulation. It includes discussions on descriptive simulation modeling, programming commands, techniques for sensitivity estimation, optimization and goal-seeking by simulation, and what-if analysis.
